Minutes
Sunday, November 2th, 2025, 11:00
633 Iberia Rd., Galion, OH**

Minutes

Attendees: Tom, Sharon, Mary, Eric, Liz, Ruth, Laura, Cynthia, Tony, Tom, Helen, Chuck, Jamie, Jeremy

1. Approval of 2024 Minutes

Motion to approve: Ruth, Tony second

2. Treasurer's Report

Beginning balance:	\$467.86
Deposits (dues)	\$165 (33 paid members)
Interest	\$.11
Total:	632.97

Expenses:

Internet	\$50
EZ Up Canopy + sides	\$251
Ending balance:	\$331.97

We will need to pay \$249 to keep the website for the upcoming year.

We really need everyone to pay their dues. The website is essentially our only expense, but it is a big one and may get bigger if we are charged for using extra space.

3. OLD BUSINESS:

- a. Club Canopy – Ruth ordered and is currently storing the canopy; contact her if you have an outing and want to use it.
- b. Club calendar – Never happened (Mary didn't follow up)

4. NEW BUSINESS:

a. Website and listserv update

Internet provider has sold; the server moved everything to a data center (SmartWay Communications) and everything is getting transferred. Company didn't know we had a website. Tony had to buy new space at \$249. We have already reached the maximum limits. Once the website is uploaded, we may need to have to pay for more space.

We talked about what we want to keep on the website (trip reports for sure) and what we can eliminate (i.e., camp food). There's so much great historical info on the site. Pictures take up the most space, so it may be we have to let those go at some point.

We believe new some new members get to the club by way of a search, if we want to continue. Are we attracting enough people to warrant keeping it? Should we look at other social media options (TikTok, Instagram)?

Mary moved that we continue forward for now, and meet in July for an outing and meeting to assess where we are as a club and decide how to proceed (as a group and with the website). Cynthia seconded.

Listserve/Email: For now, we will use the distribution list Tony created a couple weeks ago. Once the website and server is updated, Tony will send an email using the listserve, followed immediately by an email using the distribution list so we can make sure everything is working

BIG thank you to Tony for dealing with this as the transition occurs.
